

PeerRX™ Fact Sheet

Decreased criminal justice involvement
(Rowe, et al., 2007; Mangrum, 2008)

Decreased emergency service utilization
(Kamon & Turner, 2013)

Reduced relapse rates
(Boisvert et al., 2008)

Reduced re-hospitalization rates
(Min et al., 2007)

Reduced substance use
(Bernstein, et al., 2005; Boyd et al., 2005; Kamon & Turner, 2013; Mangrum, 2008; O'Connell, ND; Rowe, et al., 2007; Armitage et al., 2010)

PeerRX™ is a new Uber-like app that helps find peers fast. Peers receive texts right to their mobile phones and deploy immediately. Locations specify their peer calling preferences to target peer suppliers with existing relationships and avoid area competition. Used in various settings such as emergency departments and 911 call centers, PeerRX™ has proven to cut the time to find a peer from 1.4 hours to under 10 minutes. Additionally, peer suppliers report a 255% increase in ED peer referrals. PeerRX™ doesn't miss a request because all requests are logged and available for follow-up—especially after hours. Sign up and start using PeerRX™ in 10 minutes!

Value of peers in supporting recovery from substance use disorders, SAMSHA, 2017

PeerRX™ runs on any desktop, tablet or mobile device and can be accessed from anywhere to find a peer.

Sign up in 3 simple steps:

1. Register your facility.
2. Get approved by the PeerRX™ team.
3. Start calling for peers.

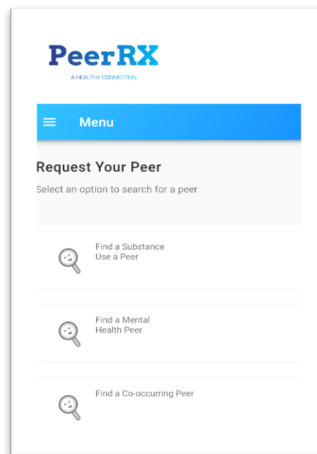

Your facility will choose the preferred peer providers in the area so PeerRX™ will know which

peers to alert.

Following your registration, PeerRX™ will inform your area's agencies that your facility signed up.

PeerRX™ sends your peer requests directly to the peers qualifying for the referral. In seconds, area peers will respond.

The peer that *best matches* the client's preferences and need will receive a PeerRX™ notification to proceed to the client. If

your facility has ON SITE peers, PeerRX™ will only send referrals to them.

Fast, efficient, healing.™

PeerRX™ Rapid Response

For Hospitals/Facilities

- Call for SU, MH or Co-Occurring peer support
- Facilitate transition to community peers effortlessly
- Find peers in minutes
- Support patient preferences
- Offer nurses a simple, fast tool

For Agencies/Peer Suppliers

- Respond rapidly to area needs
- Monitor facility requests
- Manage peer activity
- Streamline operations

All referral requests and data is stored for advanced reporting of area needs and volume.
